

**Subject:** animal testing

**Date:** Tuesday, June 5, 2007 4:08 PM

I am writing to you to express my concern re animal testing. it is common knowledge that animals systems are different than human beings and often the so called test results are non conclusive or helpful to humans.

Europe has dozens of validated non animal tests and you have only one currently in use.

i am hopein you will immediatly accept your european counter ECVAM and incorporate these non-animal tests.

It is unnecessary and painful for these beautiful creature to continue to suffer needlessly at our hands.

Please please do something about this.

sincerely, candi derderian
